

# Soirée Cedille

---

Cedille Records is excited to celebrate with you virtually at Soirée Cedille. We look forward to seeing old friends and making new ones!

Throughout the COVID-19 crisis we have been inspired by the creativity of members of the arts community who have created new and innovative programming and connected with audiences in novel ways. Many local small businesses have reinvented themselves to continue to serve customers as well.

We are saddened that we cannot celebrate with you in person at Soirée Cedille this year. Had we been able to, we would have partnered with our friends at the local businesses below.

We look forward to seeing you at Soirée Cedille next year and working with these resilient businesses. We hope you will consider supporting them in the meantime.
